

The Value of Dental Benefits is Clear..

The Surgeon General reports that more than **64 million work hours** are lost each year because of untreated dental problems and **5 million school hours** are missed each year because of dental-related illnesses.

Keep your employees smiling with Solstice's dental benefit options.

Your employees are less likely to seek preventive care and treatment when they don't have dental benefits, which means if they have an issue, it gets worse, and the treatment gets more invasive and more expensive. This not only impacts employee sick days, but poor oral health can lead to a number of health issues including heart disease, stroke, increased issues for diabetics and premature birth.

The Solstice Difference:

- Open access network: No Rosters and No Capitation
- Implant coverage with co-payments
- Discount vision and Rx plans at no additional charge
- Cosmetic and Orthodontia (including Invisalign) covered
- Over 4,000 providers in Florida
- Voted one of Florida's Best Companies, 2011
